### Risks Involved in Use of Internet and Cellular Telephones

The bank uses advanced technology and takes steps to protect its computer and information systems, but nonetheless there is a risk of break-in and penetration of the databases in which information about me and about my accounts is stored, including the risk that various actions may be performed in my accounts without my consent and/or by unauthorized parties.

Furthermore, in order to receive services, the bank will deliver a unique password and personal user code that allow entry and access to the bank's online system and cell phone system and receipt of services through these systems, and a failure to safeguard the password and code or their disclosure and/or transfer to any other party may enable others to enter and access the online and cell phone systems and obtain information and services through these systems.

The use of up-to-date antivirus software and software that protects computer against unauthorized access is recommended may reduce the risks involved in using the Internet.

All of the above shall not detract from any responsibility applicable to myself or to the bank.

If a request to carry out a transaction falling within the fields of operation selected or join a service in the service channels that the Bank will provide and, for that purpose, we are required to sign an online request and/or online document and/or online agreement (hereinafter collectively called: "online document"), the Bank will enable view and print out the online document for the option to inspect and read all the conditions of the online document before it signature or approval.
