

We request your permission to obtain a credit report on you from the Credit Information Database at the Bank of Israel.

Your consent will enable us to evaluate your application and to match the terms of the credit offer for you.

What is the Credit Information Database?

It is a Bank of Israel database, consisting of information on credit applicants collected from accredited information sources (such as banks, large service providers and State authorities) and which is transferred to the Credit Bureau. The information enables banks to better manage their risks when extending credit
